Whole grain per serving counts are based on the recipes included with each product. The Pre-Soaked Instant Grains count is based on the product before being added to a recipe.

The FDA recommends people consume three 16-gram servings of whole grains each day. The FDA has also approved products containing at least 51% whole grain ingredients by weight and a minimum of 1.7 g of fiber per 35 g serving to include the following statement:

"Diets rich in whole grain foods, and low in total fat, saturated fat and cholesterol, may reduce the risk of heart disease and certain cancers."

HEALTHY MIND & BODY
